

Nasreen;

How are you? I hope that your New Year has been well. Excuse me for taking so long to write you after our visit; I've ^{been} a little busy & the days got away from me.

I'm enclosing in this letter several visiting forms so you can pass them out to whom ever. Please have them fill them out & send them in an envelope addressed to me.

I also did a revision on the application. I ended up typing it out (trying to save ya'll as less work as possible). Maybe you & Dianne can go over it & see if there are any changes you'd like to make. I didn't know what letters of support or other material that you all planned to attach to the application so I didn't say anything about those inside the application itself. It may need to be added in somewhere once everything is collected.

Again, I really appreciate what you are doing for me well. I hope that I haven't forgotten anything. I'm going to send this there so I can get this
