

Dear Parole Board,

I am a high school student, and when I was in middle school, I was mentored by a TKF mentor. The story of Tony and Tariq, and how their families came together to stop youth violence had a major impact on me. I came from a family full of gang members, but now I'm doing great in school and planning to become a social worker/teacher/(whatever) someday. The lesson of TKF started me on this positive path.

I believe if Tony is paroled, he will be able to reach a lot of youth, and make a big difference in people's lives, because his story is something many of us can relate to, and he is a positive role model for young people.

I know Tony will not be a danger to the public because he has a lot of support and meaningful work to accomplish in our community. Please grant Tony parole.

Sincerely,

Jane Doe
